

[BeginText]

This letter is in response to your letter of February 17, 2006 regarding the 2005 Year End Report for Green Mountain PAC covering 7/1/05 to 12/31/05.

We have updated information for the contributors you requested and have filed an amended report containing that information.

The fundraising costs and other expenditures you question all relate to general support of the PAC. None of these expenses were for supporting a specific candidate or for public communication.

The payments to consultants are our administrative expenses. There are no other administrative expenses. The only staff is consultants who do fundraising and general administration. The original report contains all administrative expenses.

Please note that it is the policy of Green Mountain PAC to report all contributions and expenses on a fully itemized report, including those that fall below the \$200 threshold.

If you have additional questions, please contact me.

Richard Cassidy
